

Don't risk handling counterfeit goods.

Using counterfeit and non-compliant devices not only puts your registration at risk, it places your patients, colleagues and practice at risk too.

Counterfeit and substandard dental devices are a growing problem within the UK dental sector. As part of an industry-wide response the BDIA operates a Counterfeit and Substandard Instruments and Devices Initiative (CSIDI).

CSIDI facilitates the reporting of those selling counterfeit and non-compliant products and

promotes responsible purchasing throughout the dental supply chain.

Every BDIA member adheres to a strict code of practice which means that in choosing to do business with any of them you can have confidence that everything you buy is of guaranteed quality and provenance.

To find out which suppliers are members of the BDIA and how they can help to protect your practice by providing the genuine, quality products and services that you need, visit: www.bdia.org.uk

Report anything suspect now to www.bdia.org.uk/device-reporting
